

The Better Stands Program is an industry wide campaign aimed to unite exhibitors, contractors and the wider events industry together to move away from disposable, single use stands at our events, in favour of re-usable structures. Our aim is to halve the waste by 2025. We believe that by eradicating disposable exhibition stands we will improve the ease, safety and sustainability of the exhibitor experience at our events. **Please review the construction materials of the booth and fill in the following information truthfully:**
